On the subject of improvement of the Fine Arts education quality

The mechanisms and methods of solving the problem of improvement of the Fine Arts education quality are starting to be the main problem facing higher education institutions. One of the possibilities of solving this problem at the Institute of the Fine Arts of Omsk State Pedagogical University (OSPU) is the existing Federal Experimental Site. The aim of the experiment is the creation of a uniform Centre for the Arts and Aesthetics "primary and secondary school of the Arts (elementary level) – undergraduate school of the Fine Arts (advanced level) – graduate school of the Fine Arts and postgraduate school of the Fine Arts (proficiency level)", which sets the standards for a consecutive educational and professional system. Its main aim is to continuously enhance the abilities of students of the Fine Arts at all mentioned levels in their development of aesthetic, creative and professional competence and in case of the graduates their academic qualification.

Keywords: Bologna process, modern model of education, quality of education, art education
