ТРЕБОВАНИЯ К ОФОРМЛЕНИЮ НАУЧНЫХ СТАТЕЙ, НАПРАВЛЯЕМЫХ В «ОМСКИЙ НАУЧНЫЙ ВЕСТНИК»

О содержании. Статья должна содержать только оригинальный материал, отражающий результаты исследований автора.

В аннотации (3–5 предложений), раскрывающей основное содержание статьи, и в заключительной части статьи необходимо отразить новизну результатов исследования, их практическую значимость. Просим авторов оминой акцентировать полезность научных разработок для Омского региона.

О рассмотрении поступивших материалов. В редакции все поступившие статьи направляются на рецензирование. Высказанные замечания передаются автору. После доработки материалы вновь рассматривает рецензент, после чего принимается решение о направлении в печать.

Об оформлении. Статью необходимо набрать в текстовом редакторе Word (кроме Word-2007 (*.docx)) (шрифт — Times New Roman Cyr 14 пт, абзацный отступ — 0,5 см, межстрочный интервал — полуторный, без переносов в словах). Распечатать на бумаге формате А4 (210x297 мм). Оригинал должен быть чистым, не согнутым, без ручных правок, страницы пронумерованы карандашом на обороте. Окончательный вариант статьи должен содержать не более 12 страниц (включая рисунки и таблицы). В редакцию необходимо предоставить распечатанный вариант статьи (с личной подписью автора/авторов) и электронную версию на любом из перечисленных носителей: CD-, DVD-дисках, запоминающем устройстве Flash drive (или отправить по электронной почте: onv@omgtu.ru).

Поля: сверху и снизу — по 2,5; слева и справа — по 2 см.

Заголовок. В верхнем левом углу листа проставляется УДК. Далее, по центру, печатается название статьи (**прописная буква только первая**), ниже — инициалы, фамилия автора (ов), строкой ниже — полное название организации (через запятую необходимо указать город, если этого не следует из названия). Ниже через строку помещаются текст аннотации и ключевые слова на русском языке.

Через строку **на английском языке** приводятся инициалы и фамилия автора (ов), название статьи, аннотация и ключевые слова. Еще через строку помещают основной текст статьи.

Ключевые слова на русском и английском языках располагают под соответствующей аннотацией. Слева печатается словосочетание «Ключевые слова: ...» или «Keywords: ...» и через запятую приводятся ключевые слова (не более шести слов/словосочетаний).

Если в тексте есть **примечания**, то после основного текста перед библиографическим списком набирается по центру заглавие «Примечания» и через строку помещаются тексты примечаний, пронумерованные числом в виде верхнего индекса (например, ¹) в порядке ссылок по тексту. **Ссылка на примечание** в основном тексте оформляется жирным шрифтом числом в виде верхнего индекса (например, ... модели. ¹). Автоматическая нумерация примечаний не допускается.

Формулы. Простые внутрискладочные и однострочные формулы должны быть набраны символами без использования специальных редакторов (допускается использование специальных символов из шрифтов Symbol, Greek Math Symbols, Math-PS, Math A, Mathematica BTT). Сложные и многострочные формулы должны быть **целиком** набраны в редакторе формул Microsoft Equation 2.0, 3.0. **Не допускается набор части формулы символами, а части — в редакторе формул.** В случаях, когда написание строчных и прописных букв совпадает и отличается только размером, в распечатанном варианте прописные буквы должны быть подчеркнуты простым карандашом двумя чертами снизу, строчные буквы — двумя чертами сверху. Индексы поясняются или дубли-

руются простым карандашом на полях. Если в тексте статьи формулы нумеруются, то эту нумерацию следует выполнить набором чисел. Автоматическая нумерация не допускается.

Библиографический список. В тексте должны содержаться ссылки на источники информации. Ниже основного текста (или текстов примечаний) печатается по центру заглавие «Библиографический список» и через строку помещается пронумерованный перечень источников в порядке ссылок по тексту в соответствии с действующими требованиями к библиографическому описанию. В одном пункте перечня следует указывать только один источник информации.

Ссылки на источники информации оформляются числами, заключенными в квадратные скобки (например, [1]). Библиографические описания оформляются в соответствии с ГОСТ 7.1-2003 и тщательно выверяются. Если ссылка на источник информации в тексте статьи повторяется, то повторно в квадратных скобках указывается его номер из списка (без использования в библиографическом списке следующего порядкового номера и ссылки «Там же»). В случае, когда ссылаются на различные материалы из одного источника, в квадратных скобках указывают каждый раз еще и номер страницы, например, [1, с. 17] или [1, с. 28–29].

Таблицы помещаются на новой странице после библиографического списка. Нумерация таблиц производится в порядке ссылок по тексту. Нумерационный заголовок таблицы набирается жирным шрифтом с выравниванием по правому краю (например, **Таблица 1**). Тематический заголовок (если имеется) набирается на следующей строке жирным шрифтом с выравниванием по центру. Ссылка на таблицу в основном тексте оформляется жирным шрифтом в скобках — например, (табл. 1). Если таблица имеет большой объем, она может быть помещена на отдельной странице, а в том случае, когда она имеет значительную ширину, — на странице с альбомной ориентацией.

Рисунки последовательно размещаются на новой странице после таблиц (или библиографического списка). Нумерация рисунков производится в порядке ссылок по тексту. Нумерационный заголовок набирается жирным шрифтом с выравниванием по центру (например, **Рис. 1**). Тематический заголовок (если имеется) — в той же строке сразу же после нумерационного (например, **Рис. 1. Зависимость...**). Ссылка на рисунок в основном тексте оформляется жирным шрифтом в скобках — например, (**рис. 1**). Если рисунок имеет большой формат, он должен быть помещен на отдельной странице, а в том случае, когда он имеет значительную ширину, — на странице с альбомной ориентацией. Рисунки могут быть сканированными с оригинала (150 dpi в градациях серого) или выполнены средствами компьютерной графики. Допускается, а в случае с иллюстрациями большого объема (файла) приветствуется, размещение рисунков в отдельном файле электронной версии. Подписи к рисункам должны быть выполнены непосредственно под рисунком.

На последней странице указать следующие **сведения об авторе:** фамилия, имя, отчество; ученая степень, звание, должность, место работы, номер телефона (не публикуется); адрес для переписки; для иногородних авторов — почтовый адрес, на который отправляется журнал в случае публикации их статьи; две заверенные **рецензии** специалистов с ученой степенью (внутреннюю и внешнюю); **экспертное заключение** о возможности открытого опубликования.

С аспирантов плата за публикацию не взимается.

Распечатанный вариант статьи и оригиналы рецензий можно отправить по адресу: 644050, г. Омск, пр. Мира, 11, ОмГТУ, редакция журнала «ОНВ».

Тел. 8 (3812) 65-32-08.
