## ARE PURE MENTAL STATES CONCEIVABLE?

The article gives critical objections to the minimal dualism argument proposed by Bogdan Faul. It is demonstrated that the method of introspection used by B. Faul in his article in order to explain subject's access to their own mental states undermines the validity of the proposed argument.

**Keywords:** Bogdan Faul, minimal dualism, conceivability argument, ignorance hypothesis.

### Acknowledgments

The reported study is funded by RFBR according to the research project no. 19-011-00604 «Dualism in contemporary philosophy of mind».
